

Ser 45(B)

Red dashed lines representing a protein residue, likely Serine 45(B), interacting with the 1PG 701(C) molecule.

Phe 47(C)

Red dashed lines representing a protein residue, likely Phenylalanine 47(C), interacting with the 1PG 701(C) molecule.

Ser 45(C)

Red dashed lines representing a protein residue, likely Serine 45(C), interacting with the 1PG 701(C) molecule.

Trp 43(C)

Red dashed lines representing a protein residue, likely Tryptophan 43(C), interacting with the 1PG 701(C) molecule.
